

Welcome to

## Life's Digital Learners

### Community Guidelines

#### **Participate!**

Don't be afraid to post, share, or comment on anything. We want to hear your thoughts and experiences. The more you participate the livelier the group will be and the more you'll get out of it.

#### **Be Kind!**

We're all here to share in each other knowledge and spirit while creating a welcoming environment. Let's treat everyone with respect. You don't have to agree, but you must be kind.

#### **Be Patient!**

Make sure everyone feels safe to post and ask questions. We all learn at different speeds. Don't make anyone feel bad for trying to do better.

#### **Respect Everyone's Privacy!**

Being a part of this group requires trust among everyone. Authentic, expressive discussions make groups great, but may also present sensitive and private information. The Vegas rule applies; what's shared in the community, stays in the community.

#### **No Spamming!**

Please. We get enough ads and sponsored posts in our daily lives. Don't ruin the community experience by posting spam or irrelevant links.
